

# RISE TO NEW HEIGHTS

## Project Management Bootcamp

Reach new heights in your career when you register for the Project Management (PM) Bootcamp. This 3-day interactive course is designed to teach the fundamentals of project management following the Project Management Institute (PMI) global standard.

Content is provided in a three-day “boot camp” format which integrates three types of information to optimize learning:

- Project Management (PM) process knowledge
- Customized, real-world exercises using PM tools and forms
- Project Management Professional (PMP)<sup>®</sup> certification preparation

Upon completing this course and meeting the PMI's requirements for education and professional experience, students are encouraged to apply for PMP<sup>®</sup> or Certified Associate in Project Management (CAPM)<sup>®</sup> certification.

Obtaining professional certification can be a big asset to your career and your business. Accreditations can help build credibility, increase your earning potential, offer international recognition and open doors to new opportunities!

## 5 Learning Objectives

The PM Bootcamp is a dynamic three-day interactive class. Learn from Alluvionic's team of professionals, the project management experts!

- Gain a working knowledge of the PMI project management model, including knowledge areas, process groups and individual processes.
- Develop expertise in the fundamental PM processes of scope decomposition, cost and schedule estimation, earned value management, change management, risk management and other knowledge areas.
- As practitioners, build your toolbox of PM forms, methods and analyses to become more effective project managers.
- As professionals, understand the meaning and requirements of PMP® certification, and be prepared for the PMP® exam through practice tests and reviews.
- Upon completion of the course, successfully manage projects using proven tools and methods, consistent with the global standard for project management.

---

## Course Materials

Attendees are required to bring a laptop computer with Microsoft Office applications including: Word, Excel and PowerPoint. (*Laptops are available for rental for \$99 – must reserve in advance.*)

*The class will provide:*

- A Guide to the Project Management Body of Knowledge (PMBOK)®, Sixth Edition.
- PMI brochures and handbooks.
- PM Bootcamp training class notebook.
- Forms and exercises to be used in class.
- On-line training account for PMP® practice tests. (*Valid for 90 days.*)

---

## Course Guarantee

Students who successfully complete the PM Bootcamp course, including the post-course assignments, are guaranteed to pass the PMI PMP® or CAPM® certification exam on their first try, or they will be entitled to:

1. Attend the course again for free, or
2. Receive one-on-one tutoring in specific knowledge areas. The certification exam must be taken at a PMI approved test location within 90 days of taking the PM Bootcamp course.
